UNIVERSITY OF SOUTH ALABAMA

2020 Freshman Cohort Non-returning Students: What do we know?

Executive Summary

The following report provides an analysis of 448 first-time full-time degree-seeking freshmen in the University of South Alabama (USA) 2020 freshman cohort who did not return to USA in Fall 2021. Of these non-returning students, 152 (34%) transferred to another institution prior to Fall 2021 and 296 (66%) "stopped out" or did not enroll in another college or university.

Results indicated a large majority of transfer students transferred to another public institution located in Alabama. Initial indicators (known prior to Fall 2020) to monitor in order to identify students at greater risk to "stop out" instead of transferring to another institution included local students from Mobile or Baldwin County (23%), first generation student (16%), lived off-campus (15%), received a Subsidized Stafford Loan (14%), and received a Pell Grant (13%).

Results known after the end of Fall 2020 showed a large percentage based differential between students who received four or more at-risk midterm grades in Fall 2020 (12%) compared to students who transferred and had a similar number of at-risk midterm grades. End of Summer 2021 findings showed a large percentage based differential between students who "stopped out" with a USA GPA of 2.0 or lower (35%) and students with zero to six hours earned at USA (19%) compared to students who transferred and had a similar USA GPA or a similar number of USA hours earned.

Overview

The following report provides an analysis of 448 first-time full-time degree-seeking freshmen in the University of South Alabama (USA) 2020 freshman cohort who did not return to USA in Fall 2021. The National Student Clearinghouse (NSC) was used to identify whether non-returning students transferred to another institution or "stopped out" and did not enroll in another higher education institution in Fall 2021. While the preference is for students to return and persist at USA, a student who transferred to another institution could be considered a secondary measure of student success.

More than 3,600 colleges and universities in the United States participate in the NSC. With NSC participating institutions enrolling over 97% of all students in public and private colleges and universities in the United States, students who were not identified as transfer students by the NSC were unlikely to be enrolled at another college or university and had "stopped out" of higher education. This report provides comparisons between 152 non-returning students who transferred to another institution prior to Fall 2021 and 296 non-returning students who "stopped out" and did not enroll at another college or university.

Profile of Non-returning Student Who "Stopped Out" and Transferred

A non-returning student who "stopped out" and transferred to another institution most likely had the following profile or characteristics (see Table 1). The characteristics are rank ordered high to low based on the profile of students who "stopped out".

Table 1: Profile of Non-returning Students * Students Who "Stopped Out" Compared to Transferred

Profile Comparison	"Stopped Out"	Transferred
Did not participate in Greek life	97%	95%
Did not attend a USA Day	88%	80%
18 years old	81%	89%
Did not receive a NACAC fee waiver for ACT or SAT test-taking purposes due to meeting one of the indicators of economic need	80%	88%
Took a First Year Experience (FYE) course	75%	70%
Participated in a learning community	73%	74%
USA GPA of 2.0 or lower at the end of Summer 2021	71%	36%
Not on probation after Fall 2020	70%	78%
Not a first generation student	60%	72%
Female	57%	63%
White	56%	58%
Lived off-campus	55%	40%
Did not receive a Subsidized Stafford Loan	51%	65%
From Mobile or Baldwin County	51%	28%
From rest of Alabama	27%	33%
Did not receive a Pell Grant	51%	64%
Received a freshman scholarship	50%	55%
High school GPA of 3.51 or higher	45%	61%
Earned zero to six USA credit hours at the end of Summer 2021	35%	16%
Earned 24.5-30 USA credit hours at the end of Summer 2021	8%	29%
ACT Composite score of 19 or lower	31%	31%
Four or more at-risk midterm grades in Fall 2020	26%	14%
No at-risk midterm grades in Fall 2020	22%	41%
Attended Freshman Session 7 orientation	13%	14%

Where Non-returning Students Transferred

Of the 152 non-returning students who transferred, a large majority transferred to an institution with one of the following characteristics (see Table 2 and Table 3). The transfer institution was likely public (89%) and/or located in Alabama (53%). Mississippi (18%) and Florida (11%) were the next most likely state locations of the transfer institution for non-returning students. Non-returning students were also slightly more likely to attend a four-year (51%) institution.

Table 2: Control and Type of Institution Where USA Students Transferred

Public or Private Institution	Count	%	Four or Two-Year Institution	Count	%
Public Institution	136	89%	Four-Year Institution	77	51%
Private Institution	16	11%	Two-Year Institution	75	49%

Table 3: Top States Where USA Students Transferred

Rank	State	Count	%
1	Alabama	81	53%
2	Mississippi	27	18%
3	Florida	17	11%
4	Louisiana	6	4%

The most common four-year transfer institutions of choice (see Table 4) were University of Alabama at Birmingham (9) and Pensacola State College (8). Of the two-year institutions, Mississippi Gulf Coast Community College (15) and Coastal Alabama Community College (14) were the most common transfer destinations.

Table 4: Top Institutions Where USA Students Transferred

Rank	College	Count	%
1	Mississippi Gulf Coast Community College	15	10%
2	Coastal Alabama Community College	14	9%
3	Bishop State Community College	10	7%
4	University of Alabama at Birmingham	9	6%
5	Pensacola State College	8	5%
6	Shelton State Community College	7	5%
6	University of West Florida	7	5%
8	Pearl River Community College	6	4%
8	Troy University	6	4%
10	Auburn University	5	3%
10	Jefferson State Community College	5	3%
10	University of Mobile	5	3%

Comparison of Non-returning Transfer Students to Students Who "Stopped Out"

Multiple characteristics of non-returning students were compared to determine what characteristics showed a large percentage based differential between 296 non-returning students who "stopped out" compared to 152 non-returning students who transferred. The following table displays characteristics with a percentage based differential of 10% or greater between students who transferred and students who "stopped out" (see Table 5 or complete data tables found in the Appendix).

Results showed the USA GPA after the end of Summer 2021, region where the student originated from, and number of USA hours earned after the end of Summer 2021 were the top three characteristics with subgroups that showed the greatest differential between non-returning students who transferred and students who "stopped out". Results showed:

- 71% of the non-returning students who "stopped out" had a USA GPA of 2.0 or lower (194) compared to 36% of non-returning students who transferred (53) and 21% of the non-returning students who transferred had a USA GPA of 3.51 to 4.0 (31) compared to 5% of the non-returning students who "stopped out" (15),
- 51% of the non-returning students who "stopped out" came from Mobile or Baldwin County (150) compared to 28% of non-returning students who transferred (43), and
- 29% of non-returning students who transferred had 24.5 to 30 USA hours earned (43) compared to 8% of non-returning students who "stopped out" (23) and 35% of non-returning students who "stopped out" completed zero to six USA hours earned (97) compared to 16% of non-returning students who transferred (23).

Table 5: Characteristics with Greatest Differential between Non-Returning Transfers and Stop Outs

Top within Group Characteristics	Transferred (n=152)	% Transferred	"Stopped Out" (n=296)	% "Stopped Out"	% Difference Between Transferred & Stopped Out
USA GPA After Summer 2021 (Note: n=275 "Stopped Out"; 148 Transferred)					
2.0 or lower	53	36%	194	71%	-35%
3.51-4.0	31	21%	15	5%	+16%
Region					
Mobile or Baldwin County	43	28%	150	51%	-23%
USA Hours Earned After Summer 2021 (Note: n=275 "Stopped Out"; 148 Transferred)					
24.5-30 hours earned	43	29%	23	8%	+21%
0-6 hours earned	23	16%	97	35%	-19%
Number of At-Risk Midterm Grades in Fall 2020					
No at-risk MT grades	62	41%	66	22%	+19%
4 or more at-risk MT grades	21	14%	78	26%	-12%
High School GPA					
3.51 or higher	91	61%	133	45%	+16%
First Generation Status					
First Generation	25	16%	95	32%	-16%
Not First Generation	110	72%	178	60%	+12%
Housing					
Off-Campus	61	40%	163	55%	-15%
Subsidized Stafford Loan					
Received Subsidized Stafford Loan	53	35%	144	49%	-14%
Pell Grant					
Received Pell Grant	55	36%	145	49%	-13%

Note: Cells with a yellow fill color indicate % transferred compared to % "stopped out" was positive and greater than or equal to 10% while cells with an orange fill color indicate % transferred compared to % "stopped out" was negative and greater than or equal to 10%.

Six additional characteristics showed a percentage based differential greater than or equal to 10% between students who transferred and students who "stopped out". The additional characteristics were: 1) number of at-risk midterm grades in Fall 2020, 2) high school GPA, 3) first generation status, 4) housing, 5) whether the student received a Subsidized Stafford Loan, and 6) whether the student received a Pell Grant. Results showed:

- 41% of non-returning students who transferred had no at-risk midterm grades in Fall 2020 (62) compared to 22% of non-returning students who "stopped out" (66) and 26% of non-returning students who "stopped out" had four or more at-risk midterm grades in Fall 2020 (78) compared to 14% of non-returning students who transferred (21),
- 61% of non-returning students who transferred had a high school GPA or 3.51 or higher (91) compared to 45% of non-returning students who "stopped out" (133),
- 32% of non-returning students who "stopped out" were first generation students (95) compared to 16% of non-returning students who transferred (25) and 72% of the non-returning students who transferred were not first generation students (110) compared to 60% of non-returning students who "stopped out" (178),
- 55% of the non-returning students who "stopped out" lived off-campus (163) compared to 40% of non-returning students who transferred (61),
- 49% of the non-returning students who "stopped out" received a Subsidized Stafford Loan (144) compared to 35% of non-returning students who transferred (53), and

- 49% of the non-returning students who “stopped out” received a Pell Grant (145) compared to 36% of non-returning students who transferred (55).

Implications

The findings showed initial indicators (known prior to Fall 2020) that could be monitored in order to identify students at greater risk to “stop out” instead of transferring to another institution included local students from Mobile or Baldwin County (23%), first generation student (16%), lived off-campus (15%), received a Subsidized Stafford Loan (14%), and received a Pell Grant (13%). Students with these characteristics were less likely to transfer to another institution and should be targeted early with interventions to help them persist and return to USA.

Results also showed a large percentage based differential between students who “stopped out” who received four or more at-risk midterm grades in Fall 2020 (12%), earned a USA GPA of 2.0 or lower at the end of Summer 2021 (35%), and completed zero to six USA hours earned at the end of Summer 2021 (19%) compared to non-returning students who transferred. These students may have benefited from programs such as intrusive advising and peer mentoring to improve their likelihood of persistence at USA or to prepare them to transfer to another institution. While the preference is to encourage USA freshmen students to continue and persist at USA, a student who successfully transfers to another institution could also be considered a secondary measure of success compared to a complete “stop out” from higher education.

APPENDIX

Crosstabs of 2020 Freshman Cohort Non-returning Students
